15th January 2020

Dear Parents and Carers

Your child will be completing their Bikeability course on the week beginning 20th January 2020. The children will need to bring a change of clothes and shoes suitable for bike riding. They will change before and after each session. The children will be going out in all weathers so waterproofs might be useful in case it rains.

Please make sure the bike meets the criteria set out in the information that was sent home. If the instructors believe that the bike is not suitable, they will not be able to progress beyond the first session. Every child will also need a helmet.

The children will need to bring in their bikes each day; we have very limited space indoors to keep them. The Bikeability Road Safety Officer advises the children to walk their bikes to school. If you live a considerable distance away from school and cannot bring the bike each day, please contact us and we will try to make arrangements to store it overnight.

Best regards

The Year 6 Team
